The concept of meter is alien to many folk songs, which are, after all, traditionally sung by people unacquainted with "time signatures". Don't worry about the beat; sing the song over and over until it flows unhurriedly.

1. Polegala trava detela
Črljena kitica, rumena rožica
Lepa moja livado zelen
2. Jo mi žela gizdava djevoj
Črljena kitica, rumena rožica
Lepa moja livado zelen
3. Kaj našela to pred konj kedel
Črljena kitica, rumena rožica
Lepa moja livado zelen.

A harvest song from Croatia:
The grass has grown high in my beautiful green field. The proud girl will cut it and feed it to the horse.
