A young man started out for a fair. He passed through a forest then through another until he reached a chestnut forest. There was a little nightingale singing in the chestnut forest. The nightingale was singing and saying. Stop you young man, stop and listen. He stopped and listend for two days, for two days, for three days. Then his horse got tired of it, so tired of it that he started talking: Oh, you young man, oh, you brave lad, my legs, are they made of stone? Are my eyes glittering stars? If they were stones they would have broken, if they were stars they would have scattered.
